SMART URINE ANALYZER VGE Q VE/423

The Uritek TC-201 is a compact desktop analyzer designed to integrate Teco's proprietary urinalysis strips for semi-quantitative urinalysis testing. Its user-friendly interface and small footprint make it ideal for modern laboratories and clinics.

- High Throughput: 60 tests/hour
- Intuitive Operation: LCD touchscreen interface
- Extensive Memory: Stores up to 2,000 test results
- Integrated Printer: Built-in thermal printer
- Seamless Connectivity: USB data transfer, barcode, and LIS capable
- Multi-Lingual Support: English, Chinese, and Spanish interfaces

Leveraging advanced reagent technology, TC-201 precisely detects crucial urine analytes, including microalbumin, glucose, pH, and more. These critical measurements aid in the diagnosis of metabolic disorders, renal issues, UTIs, and liver conditions, providing valuable insights for effective patient care.

Technical specifications

Auto-Calibration
Color Touch Screen
Store up to 2000 Test Data
User-friendly Interface
Built-in Thermal Printer
Barcode Scanning
Multiple Language Display (English, Spanish, Chinese)

Throughput	60 Tests/hour
Memory	2000 test capacity
Testing Principle	Colorimetry
Screen	LCD touchscreen
System	Locked-system
Printing	Built-in thermal printer
Languages	English, Spanish, Chinese
Barcode Reader	Scanner port available
LIS	IP/TP and RS232
Parameters	Bilirubin (BIL), Urobilinogen (URO), Ketones (KET), Glucose (GLU), Protein (PRO), Blood (BLD), pH, Nitrite (NIT), Leukocytes (LEU), Specific Gravity (SG)

DIAGNOSTICS

Urinalysis

Teco's comprehensive urinalysis product line caters to the diverse point-of-care needs in healthcare. Our URS line features versatile urine reagent strips in various parameter combinations, providing qualitative and semi-quantitative results for key analytes like ketones, glucose, and protein.

Complementing these strips, our analyzers developed by Teco's expert R&D team are capable of automating the testing processes, eliminating visual bias, and minimizing transcription errors. Together, our strips and analyzers form an integrated solution that enhances diagnostic efficiency and accuracy in urinalysis.

Cat. #	Title	Packaging Size	ASC	GLU	BIL	KET	SG	BLO	PH	PRO	URO	NIT	LEU	CRE	MIC
